

## **ISTE-764 Project Management Activity 5**

---

Consider this course to be a personal project with a successful outcome being your receiving an A for your work. For this activity:

1. Develop a list of risks that you may need to deal with regarding your successful completion of this project.
2. Classify each of the risks in terms of Probability (High, Medium, Low) and Impact (High, Medium, Low).
3. Determine your management strategy for each of the risks.

Submit a completed table with the following format:

- One risk per row
- Columns of Risk, Probability, Impact, Strategy (Accept, Mitigate, Transfer, Eliminate), and Method (how you will implement the Strategy, leave blank for Accept)

Rubric for your grade (maximum grade is 5):

Incomplete list: -1 to -4 depending on thoroughness

Inappropriate risks: -1 to -4 depending on how many

Poor judgement of Impact on more than 20% of the risks: -1, more than 40% of the risks -2

Poor judgement of Probability on more than 20% of the risks: -1, more than 40% of the risks -2

Poor choice of Strategy on more than 20% of the risks: -1, more than 40% of the risks -2

Poor choice of Method on more than 20% of the risks: -1, more than 40% of the risks -2
